- GIT

EXPERIENCE

INTERN

interPe

2024 - JULY

- Maintained accurate records of all activities performed throughout internship period.
- Prepared reports summarizing project progress and results for management review.
- Helped maintain applicant tracking systems and recruiting metrics.

PROJECT

Image Generator Project - 1

- **Project Overview:** Developed a web application that allows users to input a name or keyword and receive a relevant image in response, utilizing an external image API.
- **Technology Stack:** Built with HTML for structure, CSS for styling, and JavaScript for API integration and dynamic content rendering
- **Outcome:** Delivered a functional and visually appealing image generator that showcases practical skills in API integration, front-end development, and user experience design.

Amazon Clone (Frontend) Project - 2

- **Project Overview:** Developed a front-end clone of the Amazon e-commerce platform, focusing on creating a responsive and user-friendly interface that mimics the functionality and design of the original site.
- Amazon Clone (Frontend) used HTML for markup, CSS for styling, and JavaScript for interactive features
